## **DETAILED ACTION**

### ***Allowable Subject Matter***

1. Claims 11, 13, 15-17, 19 and 20 are allowed.
2. The following is an examiner's statement of reasons for allowance:
3. The prior art made of record fails to disclose, suggest or render obvious a measuring tube for a flow sensor, wherein the measuring tube comprises at least one groove located between the first and second ends of the measuring tube and spaced apart from a first and second widening areas, such that a ridge on the inner support skeleton extends into the at least one groove first and second.
4. Compared to Frey et al. (PG-PUB 2002/0033054 A1), which features a first and second widening 111,112 and an inner support skeleton 13, the instant application features the addition of the one or more groove spaced away from the widenings and also accommodates a ridge from the support skeleton.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
